Government Order No.4849-52/L.B.(26-05)-2 dated the 10th November 1905, directing that the project amounting to Rs 11,200 for opening a road on the left bank of the river Hemavati to connect Channarayapatna with Hole-Narsipur lie over until funds become available for the work.

2. Note No.D.117 dated the 10th March 1917 by the Secretary, Public Works Department submitting, for orders, alternative estimates amounting to Rs 40,690 and Rs 54,715 respectively for the work and recommending administrative sanction to the smaller estimate

---

Order No. 1116-21 P.W.5850-5 dated Bangalore 8th June 1917.

Hole-Narsipur and Channarayapatna are two of the important towns in the Hassan District. There is a road connecting the two towns, but it crosses the Hemavati at Ganni where there is no bridge.

2. The subject of opening another road from Channarayapatna to Hole-Narsipur on the left bank of the river Hemavati, passing over the bridge at the latter place has been repeatedl urged at the Representative Assembly and has also been under consideration for several years.

3. Two alternative estimates in the rough, one amounting to Rs 40,690 and the other to Rs 54.175 have been submitted for the road work. Both the Chief Engineer and the President District Board, recommend administrative sanction to the estimate amounting to Rs 40,690 as it is stated to be less costly to make as well as to maintain. Government have accordingly been pleased to accept the smaller of the two estimates.

4. Half the estimated cost of the work will be borne by Government. The District Board should not only meet the other half but also take the entire responsibility for its maintenance.

5. The Superintending Engineer is requested to submit detailed plans and estimates at a very early date for the formal sanction of Government.
